

Creating safer environments
with rapid, AI-based
weapons detection solutions

Convergent value

Convergent partners with **Evolv** to accelerate physical security screenings while maintaining the highest degree of mass casualty weapons and explosive screening accuracy. This solution combines powerful sensor technology with proven **artificial intelligence**, security ecosystem integrations, and comprehensive venue analytics to ensure safer, more accurate threat detection at unparalleled speed and volume.

With flexible deployment options and **actionable insights**, Convergent provides proactive **weapons detection** solutions that utilize robust system integrations and performance analytics to streamline staffing needs, improve visitor flow, and optimize both safety and experience for all visitors.

Innovative weapons detection

- ✓ High throughput
- ✓ No divesting required
- ✓ Touchless screening
- ✓ Indoor & outdoor
- ✓ Real-time analytics
- ✓ High accuracy
