

Convergint value

With the fast-paced environment in which critical events occur, it is vital to have a streamlined and efficient solution ready to deploy instantly. With the **goal of reducing risk** and **improving safety and security**, Convergint partners with ASR Alert Systems to offer critical incident response technology solutions.

ASR Alert Systems uses a direct approach to prepare organizations for critical crisis events. The critical incident response technology directly communicates with first responders and law enforcement, **resulting in quicker response times**. Together, Convergint works with ASR to ensure the safety of organizations' staff, customers, and other personnel with decreased response times.

ASR Alert System benefits

- ✔ Security system integration
- ✔ Emergency notifications
- ✔ Reliable first responders
- ✔ Streamlined alerts
- ✔ Cost-effective
- ✔ Precise locations
